Air Intake Filter Specification Template

Cone and Bonnet Filters

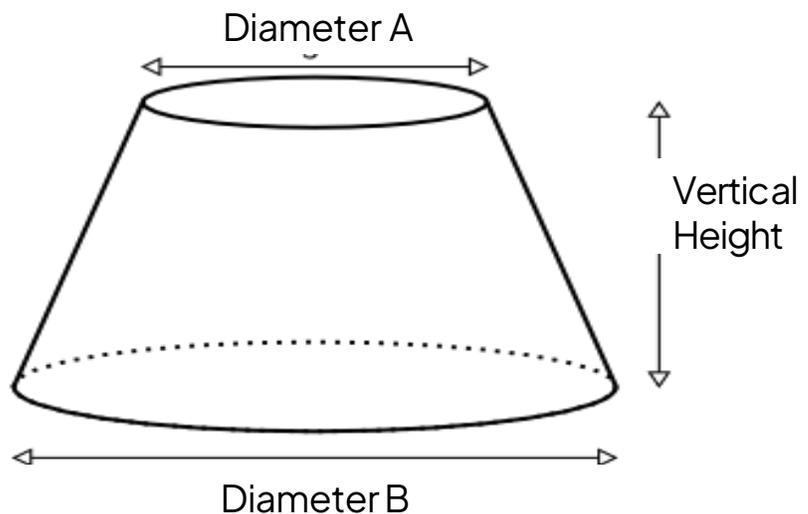

Company: _____	Contact: _____
Phone: _____	Cell: _____
Email: _____	
End Customer: _____	
Equipment Make / Model: _____	

PLEASE READ BEFORE TAKING MEASUREMENTS: Filter Screen requirements can vary from unit to unit of the same make and model based on how and where the unit is set. Therefore, verification of specifications is required to ensure that the filter screens being produced for the unit will fit properly and provide years of trouble-free service. Please capture **all** of the measurements that apply as shown below.

Quantity: _____

Dimensions	
Diameter A	
Diameter B	
Vertical Height	

Filter Grade ✓	
Std. Duty	
Medium Duty	
Fine Mesh	
HD Commercial	

Bonnet Filters Will Come Equipped with a Locking Draw String located at the “Diameter B” End. When Measuring **Only Provide Measurements Requested Above** – Insert Quantity, Dimensions and required Filter Grade to left of the drawing. **DO NOT INDICATE HYPOTENUSE** as that will automatically be determined by the diameter and height dimensions provided.
