- Equipment (Make & Model) \_\_\_\_\_

## **IMPORTANT NOTE – Please Read Before Taking Measurements:**

**Please indicate both the *inside dimension* and *outside dimension (including flange)* of the air intake opening.** The overall finished size of the air intake filter will overlap the intake opening and attach to the flange. When attaching to a chiller or condensing unit, be sure that the point of attachment will extend beyond the coil head so when stud adapter fasteners are installed they don't hit a coil.

**How Many Filter Of This Size**

\_\_\_\_\_

### **Important Note:**

Always measure across the center point of the opening. If there is a fan guard over the opening that curves outward away from the opening, be sure to measure across the center of the fan guard when taking measurements.

**Comments / Instructions (use space on back as needed)**

*Air Intake Filters Are Manufactured By: The Air Solution and Newway Company, Commerce Twp, MI 48382*
